Staff are working very hard this week to be ready for the children on Monday. Although we would love everyone to come and have a look at the new building, we ask that you hold off until next week. If we have too many interruptions we will struggle to get everything done on time.

**RELOCATION**

There will be no preschool or child care this Thursday 22\(^{\text{nd}}\) and Friday 23\(^{\text{rd}}\) of September.

On these days we will be closed for moving. We will have removal trucks here and staff will be setting up at the new building. Thank you to all the people who have told us that they are only a phone call away if we need another pair of hands...we’ll keep you posted! Kindy and child care will both be operating at the new location from Monday 26\(^{\text{th}}\) August.

**SOME HOUSEKEEPING...**

The new building has two entrance doors which automatically lock as they close behind you. If they are closed when you arrive, just press the bell and a staff member will let you in. The paved entrance area is designed to be large enough to leave prams under cover.

Our new centre has separate areas for children over/under 3 years of age. If your child is a “Puggle” (under 2 years) or a “Joey” (24-35 months) they will be using the area on the far side of the partition. If your child is a “Wallaby” (3 years or older, including kindy and school age children) they will be using the space that you walk into from the foyer.

The partition is a low shelving unit with gates on either side. It will allow us to set up age-appropriate play spaces but also to work together as we have at Irvine St. The partition can be moved when we want to do something special with all the children in
